

SAMEER KUMAR SINGH

Software Engineer / Web Developer

As a software and web developer, my objective is to continuously learn and grow my skills to benefit a reputed organization. I aim to support and help the team in achieving its goals and contribute to the development of innovative solutions. I am seeking an opportunity to expand my knowledge and expertise in a challenging environment that values creativity and teamwork.

PERSONAL PROJECTS

Personal Portfolio Website (01/2023 - 02/2023)

- Created a personal portfolio website using HTML and CSS to showcase certificates and personal projects with a visually appealing design, clean code, and optimized for different screen sizes while improving accessibility.
- URL : <https://xvisierra.github.io/sameer-portfolio/>

Personal diary management system

- C++ application Personal diary management system for generating daily records & adding/updating entries.. Save time with this convenient tool for managing personal details.
- Github : <https://github.com/xvisierra/pdmsc>

MapColoring

- Created C++ console app that demonstrates map coloring such that regions with a common border have different colors. Uses a greedy algorithm to visualize coloring of maps & demonstrate solution to graph coloring problem.
- Github : <https://github.com/xvisierra/mapcoloring>
